Subject Index of Volume 164

Thermal hydraulics and safety

Introduction, Eric S. Beckjord 164 (1996) ix
The probability of containment failure by direct containment heating in Zion, M.M. Pilch, H. Yan and T.G. Theofanous 164 (1996) 1
Closure of the direct containment heating issue for Zion, M.M. Pilch and M.D. Allen 164 (1996) 37
A tow-cell equilibrium model for predicting direct containment heating, M.M. Pilch 164 (1996) 61
The prediction of direct containment heating, H. Yan and T.G. Theofanous 164 (1996) 95
Hydrogen combustion during direct containment heating events, M.M. Pilch 164 (1996) 117
Continued enlargement of the initial failure site in the reactor pressure vessel, M.M. Pilch 164 (1996) 137
Experiments to investigate DCH phenomena with large-scale models of the Zion and Surry nuclear power plants, T.K. Blanchat and M.D. Allen 164 (1996) 147
Investigations into the physical phenomena and mechanisms that effect direct containment heating loads, J.L. Binder and B.W. Spencer 164 (1996) 175
Comparison of CONTAIN and TCE calculations for direct containment heating of Surry, K.E. Washington and D.S. Stuart 164 (1996) 201
Modeling of corium dispersion in DCH accidents, Q. Wu, G. Zhang, M. Ishii and R. Lee 164 (1996) 211
Experimental simulation of corium dispersion phenomena in direct containment heating, Q. Wu, G.J. Zhang, M. Ishii, S.T. Revankar and R.Y. Lee 164 (1996) 237
High pressure simulation experiment on corium dispersion in direct containment heating, Q. Wu, S. Kim, M. Ishii, S.T. Revankar and R.Y. Lee 164 (1996) 257
DCH dispersal and entrainment experiment in a scaled annular cavity, M.L. de Bertodano, A. Becker, A. Sharon and R. Schnider 164 (1996) 271
Direct containment heating experiments for Vandellos and ASCo nuclear power plants, R.J. Hammersley, C. Cirauqui, J. Faig and R.E. Henry 164 (1996) 287
